ANTIMICROBIAL CERTIFICATE

Pinturas EUPINCA – Spain

Con el presente documento declaramos que las pinturas “**TKROM SALUD + & TKROM PROTECT +**”, protegidas con el **0.2% de aditivo Sanitized AC+** muestran una reducción logarítmica de Escherichia coli (ATCC 8739) de 5.70 (99.99%) de acuerdo con el estándar JIS Z 2801 y por tanto se pueden considerar como pinturas con propiedades antimicrobianas.

This document does not prevent from the registration of biocidal products when sold as such. Please go into touch with your responsible SANITIZED partner to get further information for the antimicrobial claims you can make on your paint, using our SANITIZED product.

Report No.: TRCH 2020-0428
Date: 17.04.2020
Carried out by: Sanitized AG Service Lab
